Internship Experience

Web Development Intern | React, Node.js Express.js, PostgreSQL

February 2026 - April 2026

Provide Innovative Solutions Marketing Inc.

Application: [weareprovide.online/login](#)

- Redesigned 65% of the SaaS application's user interface, improving usability and delivering a more consistent user experience.
- Refactored the React codebase by reorganizing the folder structure and improving state management, resulting in cleaner and more maintainable code.
- Developed full-stack features using React, Node.js/Express, and PostgreSQL, contributing to the enhancement of a production SaaS platform.
- Built reusable React components that improved code consistency, reduced duplication, and accelerated feature development.
- Identified, troubleshoot, and resolved application issues alongside the development team, improving platform stability and reliability.

Information Technology Intern

March 2023 - May 2023

Silangan Elementary School - Silangan, San Mateo

- Diagnosed hardware, software, and network issues, minimizing downtime for faculty and staff.
 - Automated Excel-based administrative tasks using formulas, improving operational efficiency
-

Projects

- **Gym Management System | Laravel, Tailwind CSS, MySQL** **GitHub:** [github.com/Ryystuffs/gymsystem](#)
Full-stack Developer
 - Developed a Laravel-based gym management system featuring secure QR code member check-in and authentication.
 - Designed responsive user interfaces with Tailwind CSS and implemented a MySQL database for reliable member data management.
 - Integrated Simple QrCode and Html5-QrCode libraries to streamline member verification and check-in workflows.
 - **Reservation Management System | C++, MySQL** **GitHub:** [github.com/Ryystuffs/BAO-RESERVATION](#)
Full-stack Developer
 - Built a reservation management system with complete CRUD functionality for creating, updating, and tracking reservations.
 - Designed and managed a MySQL database to ensure accurate and efficient reservation data handling.
 - Developed intuitive interfaces that improved the workflow for managing reservation records.
 - **Travel Guide | PHP, MySQL** **GitHub:** [github.com/Ryystuffs/compass_php_project](#)
Full-stack Developer
 - Developed a full-stack travel guide application with CRUD operations and SMTP email notifications.
 - Delivered the project within one week, demonstrating rapid development and effective time management..
-

Skills

- **Languages:** HTML, CSS, JavaScript, PHP, C++, Java
 - **Frameworks/Libraries:** Laravel, Tailwind CSS, Node.js, React.js, Express.js
 - **Tools/Technologies:** Chart.js, React.js, Simple QrCode, Git/GitHub, Motion, MySQL, XAMPP, Bash, PostgreSQL, Render, Vercel, Microsoft 365, Figma, Networking
-

Education

- **Rizal Technological University**
Bachelor of Science in Information Technology
August 2023 - Current
